A DIVERSE

This includes working to achieve a significant and sustainable increase in the number of women in senior leadership positions in the property industry, and a pipeline of future leaders.

100 WOMEN IN PROPERTY is an initiative of the Property Council's Diversity Committees throughout Australia. It involves a personal commitment from Property Council members to champion women in their organisation or business sphere, who they believe would benefit from further networking and professional development opportunities.

Our target is to sponsor 100 Women in Property each year. The success of this program will rely on the personal commitment of members (champions) to build diversity and gender equity in our industry.

The 2017 program will run from March to December.
